

Monday August 31, 2009			
1300-1400 Drug Therapies			
Rm 101	Anesthesiology	Dr. Steven Venticinque/COL Longenecker	
1300-1310	Speaker:	MAJ Scott Blackwell	Title: Etomidate is safe for use in trauma and critical care PRO
1310-1320	Speaker:	Maj Aaron Fields	Title: Etomidate is safe for use in trauma and critical care CON
1320-1330	Moderator:	COL Kurt Grathwohl	Title: Group discussion, rebuttals, Q&A
1330-1340	Speaker:	Dr. Todd Carter	Title: Hypertonic saline is superior to mannitol in head trauma PRO
1340-1350	Speaker:	Dr. Robert Medell	Title: Hypertonic saline is superior to mannitol in head trauma CON
1350-1400	Moderator:	COL Kurt Grathwohl	Title: Group discussion, rebuttals, Q&A
1410-1510 Monitoring			
Rm 101	Anesthesiology	Dr. Steven Venticinque/COL Longenecker	
1410-1420	Speaker:	Dr. Michael Verber	Title: Ultrasound guidance as a standard for central venous cannulation PRO
1420-1430	Speaker:	Dr. Michael Murray	Title: Ultrasound guidance as a standard for central venous cannulation CON
		Dr. Stephen Cohn	
1430-1440	Moderator:	Dr. Antonio Hernandez	Title: Group discussion, rebuttals, Q&A
1440-1450	Speaker:	Dr. Thomas Grissom	Title: Near infrared spectroscopy as a routine resuscitation endpoint PRO
1450-1500	Speaker:	Dr. Thomas Grissom	Title: Near infrared spectroscopy as a routine resuscitation endpoint CON
		Dr. Stephen Cohn	
1500-1510	Moderator:	Dr. Antonio Hernandez	Title: Group discussion, rebuttals, Q&A
1530-1630 First, Do No Harm			
Rm 101	Anesthesiology	Dr. Steven Venticinque/COL Longenecker	
1530-1540	Speaker:	MAJ Christopher Clinkscales	Title: Vasopressors have a role in hemorrhagic shock PRO
1540-1550	Speaker:	MAJ Christopher Clinkscales	Title: Vasopressors have a role in hemorrhagic shock CON
1550-1600	Moderator:	Dr. Stephen Cohn	Title: Group discussion, rebuttals, Q&A
1600-1610	Speaker:	Dr. Antonio Hernandez	Title: Strict glycemic control in the operating room is beneficial PRO
1610-1620	Speaker:	Dr. Jay Ellis	Title: Strict glycemic control in the operating room is beneficial CON
1620-1630	Moderator:	Dr. Michael Murray	Title: Group discussion, rebuttals, Q&A
Tuesday September, 2009			
0800-0900 Airway Management			
Rm 101	Anesthesiology	Dr. Steven Venticinque/COL Longenecker	
			The video laryngoscope increases the threshold for performance of traditional awake intubation in patients with anticipated difficult airway: "Don't worry...we'll have the glidescope available PRO
0800-0810	Speaker:	MAJ Christopher Clinkscales	Title: glidescope available PRO

0810-0820	Speaker:	Dr. James Johnson	Title:	The video laryngoscope increases the threshold for performance of traditional awake intubation in patients with anticipated difficult airway: "Don't worry...we'll have the glidescope available CON
0820-0830	Moderator:	Dr. Steven Venticinque	Title:	Group discussion, rebuttals, Q&A
0830-0840	Speaker:	Dr. Charles Puls	Title:	Your trauma patient needs a thoracotomy: A double lumen tube is your best choice PRO
0840-0850	Speaker:	Dr. Michael Little	Title:	Your trauma patient needs a thoracotomy: A double lumen tube is your best choice CON
0850-0900	Moderator:	Dr. Steven Venticinque	Title:	Group discussion, rebuttals, Q&A
0910-1010	Real World Diplomacy			
Rm 101	Anesthesiology	Dr. Steven Venticinque/COL Longenecker		
0910-0920	Speaker:	COL Kurt Grathwohl	Title:	Enteral feeding continuation for the ICU patient returning to the operating room PRO
0920-0930	Speaker:	COL David Longenecker	Title:	Enteral feeding continuation for the ICU patient returning to the operating room CON
0930-0940	Moderator:	Dr. Stephen Cohn Thomas Grissom	Title:	Group discussion, rebuttals, Q&A
0940-0950	Speaker:	Maj Aaron Fields	Title:	Early long bone fracture repair is advantageous in the multisystem trauma patient PRO
0950-1000	Speaker:	Dr. Thomas Grissom	Title:	Early long bone fracture repair is advantageous in the multisystem trauma patient CON
1000-1010	Moderator:	Dr. Stephen Cohn Dr. Thomas Grissom	Title:	Group discussion, rebuttals, Q&A
1020-1120	Fluid Therapies			
Rm 101	Anesthesiology	Dr. Steven Venticinque/COL Longenecker		
1020-1030	Speaker:	Maj Scott King	Title:	Delayed fluid resuscitation: what's in it for us? PRO
1030-1040	Speaker:	Dr. Robert Sikorski	Title:	Delayed fluid resuscitation: what's in it for us? CON
1040-1050	Moderator:	Dr. Steven Venticinque	Title:	Group discussion, rebuttals, Q&A
1050-1100	Speaker:	Dr. Michael Murray	Title:	Colloids just work better PRO
1100-1110	Speaker:	Dr. Robert Sikorski	Title:	Colloids just work better CON
1110-1120	Moderator:	Dr. Steven Venticinque	Title:	Group discussion, rebuttals, Q&A
1120-1230	Lunch in Exhibit Hall A			
1230-1330	Introduction to Portable Ultrasound			

Rm 101	Anesthesiology	Dr. Steven Venticiniqye/COL Longenecker	
1230-1300	Speaker:	Dr. Jonathan Rogers	Title: Regional anesthesia and portable ultrasound
1300-1320	Speaker:	COL Kurt Grathwohl	Title: Non-regional anesthesia use of portable ultrasound in anesthesia and critical care
1320-1330	Speaker:	Dr. Michael Verber	Title: How to get the most out of a portable ultrasound machine
1400-1450	Live Ultrasound Demonstations I		
Rm 101	Anesthesiology (Live Demo)	Dr. Steven Venticiniqye/COL Longenecker	
1340-1400	Speaker:	Dr. Michael Verber	Title: Central and peripheral vascular access
1400-1420	Speaker:	COL Kurt Grathwohl	Title: Best cardiac and thoracic imaging
1420-1440	Speaker:	Dr. Rafael Elenes	Title: Transverse abdominal block, intercostal block, paravetebral block, localization of epidural space
1500-1600	Live Ultrasound Demonstations II		
Rm 101	Anesthesiology (Live Demo)	Dr. Steven Venticiniqye/COL Longenecker	
1500-1600	Speaker:	Dr. Jonathan Rogers	Title: Upper and Lower Extremity Ultrasound Regional Anatomy
